

PRE-PRIMARY DEPARTMENT

MONTH – APRIL'23

RED COLOUR DAY CELEBRATION

To celebrate the joy of colours we have a colour day every month and the colour of this month was Red. Our Pre-school tiny tots celebrated 'Red Colour Day' on 24th April to introduce kids into the wonderful world of colours.

The tiny tots looked stunning in their red outfits. The shades of red made the Kids feel bright, lively and cheerful. The day started off with an activity of fingertip painting in apple. It was followed by a show and tell activity in which some students spoke lines on objects they bought from home which helped in development of confidence and communication skills. Teachers discussed the significance and importance of the colour 'Red' in circle time. Lastly, the students went home happy and contented with a takeaway gift of apple with them.
