

TYING SHOELACES ACTIVITY REPORT

CLASS I AND II

NAME OF THE ACTIVITY –TYING SHOELACES ACTIVITY

SKILLS DEVELOPED

Visual Motor skill

Description of the Activity-

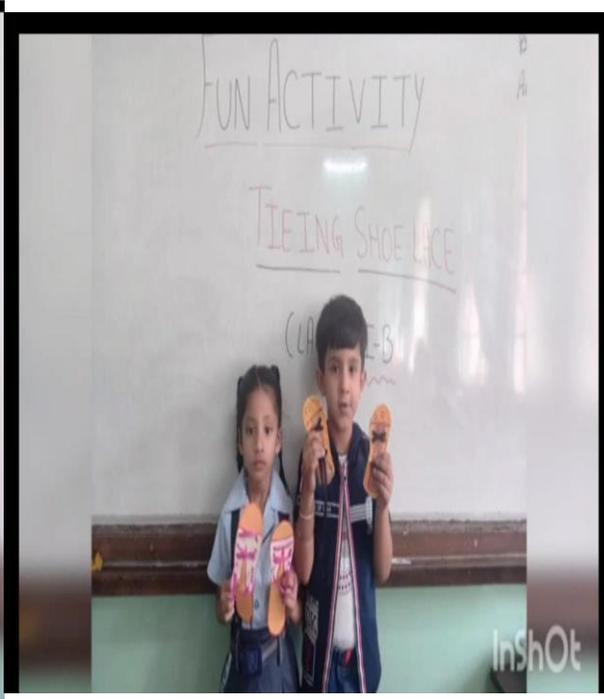

Learning to tie shoelace is a tricky fine motor skill for children but with patience and practice teachers can teach their child to tie laces on their own. It requires a lot of dexterity. Keeping this in mind a ‘Shoe Lace Tying’ activity was organized for children .It was a fun- filled activity where children had a rollicking time trying to out do their companions. Laughter and merriment resonated in the classes.
