“The earth is what we all have in common” - Wendell Berry

April 22, celebrated as Earth Day was initiated to inspire all to rejoice and cherish the beautiful planet and to awaken the people on how they can be an asset in saving the Earth from pollution, global warming, water scarcity and other several concerns. We have always believed in grooming the learners to become alert citizens who can contribute positively in safeguarding and protecting this planet by instilling the belief that each one of them can become ‘Guardian of the Globe’. This year the theme of Earth Day is 'Invest in Our Planet'.
