

The "Fun with Origami" activity was a resounding success, providing students with a fun and engaging way to develop their skills and creativity. The origami fox project was an excellent introduction to the art of origami, and students enjoyed the process of creating something with their own hands.

### **Description**

Teacher gave origami sheet to each student. Students folded the paper in half diagonally to create a triangle. Then, the teacher guided them through simple folds to shape- Body, Ears & Tail.

With these steps, students created their own adorable origami fox and pasted it in their drawing file.

### **Learning Outcomes-**

Through this Activity ,the learners were able to –

1. Enhance hand-eye coordination and dexterity through folding.
2. Develop their creativity through colour choices and decorative additions.
3. Enhance fundamental origami concepts, including folding techniques and paper manipulation.

### **Glimpses of Activity**
