

ACTIVITY: CLAY MODELLING

CLASS: PRE-SCHOOL

DATE: 20.09.2025

ACTIVITY DESCRIPTION-

Clay Modelling activity was organized for pre-school students to develop their fine motor skills, hand-eye coordination, and creativity. Students were given clay and guided to create letters, numbers, and shapes. They enthusiastically participated, exploring different forms. This activity allowed students to express their imagination and creativity.

LEARNING OUTCOMES-

1. Developed fine motor skills through clay manipulation.
2. Enhanced hand-eye coordination and dexterity.
3. Improved creativity and self-expression.
4. Recognized and created basic shapes, letters, and numbers.
5. Encouraged problem-solving and critical thinking.
