

Class –Balvatika -1

Action Game Activity

Date – 27th April 2026

The “Action Game Activity” was conducted to develop physical coordination, listening skills and active participation among the learners. The activity provided children with an opportunity to follow instructions, perform actions and enjoy movement-based learning in a fun and engaging manner. It created a lively and energetic classroom environment for all.

Description:-

Students of Balvatika–1 participated enthusiastically in the Action Game Activity. Children performed different actions such as clapping, hand movements, and body coordination exercises by following the teacher’s instructions. The activity helped children stay active, attentive and joyful while participating with their peers. The classroom atmosphere was full of excitement, energy and fun

Learning Outcomes:

Through this activity, the learners were able to –

1. Develop physical coordination and motor skills.
2. Improve listening skills and follow instructions effectively.
3. Demonstrate active participation and teamwork.
4. Boost their confidence and self-expression.
5. Experience joyful and energetic learning.

Glimpses of Activity –
