

Class: Pre-Primary
Activity report : Alphabet Scavenger Hunt
Date: 4.4.2026

To strengthen the letter recognition and vocabulary skills of the students through interactive learning, an engaging activity 'Alphabet Scavenger Hunt' was conducted for the Pre-Primary learners. The activity was designed to make early literacy development enjoyable, encouraging active participation and thoughtful responses from each student.

During the session, a box containing alphabet cards was presented to the students. One by one, each student came forward to select a letter assigned by the teacher and was then motivated to say a word associated with it. This process helped learners connect letters with corresponding sounds and familiar words in a meaningful and practical manner.

With continuous guidance and encouragement from Supervisor Ms. Kusum Sethi and Primary Headmistress Ms. Neeru Sachdeva, supported by the dedicated efforts of the teachers, the activity was conducted in an organized and inclusive manner. Every child was given an equal opportunity to participate, ensuring a supportive and confident learning environment.

The activity proved to be both effective and enjoyable, enhancing language skills while fostering confidence and enthusiasm among the students.

Learning Outcomes:

Learners were able to:

- Recognize and identify different alphabet.
- Improve their phonetic awareness and vocabulary.
- Develop confidence while speaking.
- Enhance their motor and cognitive skills.
