

Class: Pre-Primary
Activity: Domino Dash
Date: 12.5.2026

Activity Description:

A joyful and engaging Domino Dash Activity was organized in the school premises to make number learning exciting and meaningful for the young learners. The activity was designed to strengthen the children's understanding of numbers through fun-filled matching tasks.

During the activity, the students were provided with domino-style cards displaying different dot patterns. They enthusiastically observed, counted, and matched the cards with the corresponding number patterns shown to them. The little learners actively participated with great excitement and curiosity, turning the learning process into an enjoyable experience.

The activity not only enhanced their numerical understanding but also promoted attentive observation, logical thinking, and concentration. The cheerful involvement of the children reflected their growing confidence and eagerness to learn through play-based methods.

Learning Outcomes

- Strengthened number recognition and counting skills
- Improved observation and concentration abilities
- Developed matching and problem-solving skills
- Boosted confidence through active participation
- Encouraged joyful and experiential learning

Glimpses of Activity:
