

Class –Balvatika -1

Glass Go Round Activity

Date – 1st April ,2026

An engaging and interactive ‘Glass Go Round Activity’ was conducted in Balvatika–1 to promote concentration, coordination and social interaction among young learners. Designed as a fun and meaningful group task, the activity encouraged students to stay focused while working together, creating a lively and positive learning environment.

Students from Marigold, Lotus and Rose groups participated with great enthusiasm. Standing in a circle, they carefully passed glasses to one another, maintaining balance and attentiveness throughout the activity. This simple yet effective exercise helped strengthen their focus while enhancing their hand-eye coordination.

The teachers played an active role in guiding and encouraging the students, ensuring that every child felt confident and included. The classroom was filled with excitement, teamwork and a spirit of cooperation as students patiently awaited their turn and supported their peers.

The activity not only improved physical coordination but also fostered stronger peer connections and positive social interaction. The activity was carried out smoothly under the guidance of Supervisor Ms. Kusum Sethi and Primary Headmistress Ms. Neeru Sachdeva, ensuring a meaningful and enjoyable learning experience for all the students.

Learning Outcomes:-

The learners were able to :

1. Develop concentration and focus while balancing and passing the glasses.
2. Improve hand-eye coordination and motor skills.
3. Learn teamwork and cooperation by participating in a group activity.
4. Build social bonding and interaction with peers.
5. Express positive emotions and enjoy a joyful learning experience.
6. Enhance patience and turn-taking skills.
