

Class –Balvatika -1

Red Colour Day Activity

Date – 23st April ,2026

A vibrant splash of red brought excitement and energy to Balvatika–1 as students celebrated the ‘Red Colour Day Activity’ with great enthusiasm. The event was designed to help young learners identify and connect with the colour red through joyful, hands-on experiences. It created a lively and welcoming atmosphere where learning became both fun and meaningful.

Students from Marigold, Lotus and Rose groups participated wholeheartedly, dressed in bright red outfits and carrying red-coloured objects from home. They confidently spoke a few lines about their chosen items, which helped enhance their speaking abilities and build self-confidence.

The highlight of the day was a creative thumb-printing activity, where students used red paint to make beautiful cherry designs. The classroom buzzed with laughter, creativity and excitement as children explored the colour in an interactive way. The activity was smoothly conducted under the guidance of Supervisor Ms. Kusum Sethi and Primary Headmistress Ms. Neeru Sachdeva, making the day a joyful and memorable learning experience for all.

Learning Outcomes

The learners were able to –

1. Identify and recognize the red color in their surroundings.
2. Develop speaking and confidence skills .
3. Enhance fine motor skills through thumb printing activity.
4. Improve creativity and participation in art-based activities.
5. Experience joyful and interactive learning in a colourful environment.
